1 Warning

Instructions that, if ignored, could result in death or serious personal injury caused by incorrect operation of the equipment. These must be observed for safe operation.

1 Caution

Instructions that, if ignored, could result in personal injury or material damage caused by incorrect operation of the equipment. These must be observed for safe operation.

Important

Instructions including important information. To avoid damage and injury or improper use of the product, be sure to read these indications.

>>>> Note

Instructions including notes for operation and additional explanations.

Basics

Instructions explaining basic operations of your product.

>>>> Note

· Icons may vary depending on your product.

Touch-enabled Device Users (Windows)

For touch actions, you need to replace "right-click" in this document with the action set on the operating system. For example, if the action is set to "press and hold" on your operating system, replace "right-click" with "press and hold."

Trademarks and Licenses

- Microsoft is a registered trademark of Microsoft Corporation.
- Windows is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
- Windows Vista is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
- Internet Explorer is a trademark or registered trademark of Microsoft Corporation in the U.S. and/or other countries.
- Mac, Mac OS, macOS, OS X, AirPort, App Store, AirPrint, the AirPrint logo, Safari, Bonjour, iPad, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.
- IOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license.

Apache License

Version 2.0, January 2004

http://www.apache.org/licenses/ TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable

copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

- 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
- 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - 1. You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - You must cause any modified files to carry prominent notices stating that You changed the files; and
 - 3. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - 4. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

- 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
- 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
- Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without

limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

- 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
- 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

===========

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

o We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)

o You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)

o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

.....

Portions of this software are copyright © <year> The FreeType

Project (www.freetype.org). All rights reserved.

.....

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

==========

0. Definitions

Throughout this license, the terms `package', `FreeType Project', and `FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project', be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'.

This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

1. No Warranty

THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

2. Redistribution

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

o Redistribution of source code must retain this license file (`FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

3. Advertising

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

4. Contacts

There are two mailing lists related to FreeType:

o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at

http://www.freetype.org

General Notes (Accounting Manager)

When using **Accounting Manager**, the following restrictions apply. Please familiarize yourself with them before using it.

- See the Canon website for products that are compatible with Accounting Manager.
- This guide primarily provides explanations using the screens that appear when you use OS X Yosemite 10.10.
- · When uninstalling Accounting Manager, stop the resident service first.

Connecting to a Printer

· Connecting to a Target Printer

We recommend using a network connection for printer connection.

- A USB connection is also possible, but job logs cannot be acquired during printing.
- · Connecting via SSL Encrypted Communication

Connecting via SSL Encrypted Communication is available with Accounting Manager V1.2.0 or later.

In order to use SSL Encrypted Communication, you must first install a certificate on a computer with Accounting Manager installed.

The process for installing the certificate may differ depending on your setup. For more information, search for "Registering Printer's Root Certificate to Local Computer for SSL Communication" on your device's online manual homepage.

Power Status of a Target Printer

• The printer information cannot be acquired when the printer has auto powered off or has been turned off with the Power button.

In addition, job logs or information cannot be acquired from the software when the printer auto power off state or the printer button off state is canceled.

Installing Updates

>>>Important

• When updating from a previous version, the printer list and job logs will not be retained.

• To retain the printer list and job logs, export the printer list and job logs before updating.

After the update has been completed, import the exported printer list and job logs.

Note

 For details on exporting and importing the printer list, see "<u>Printer Management ダイアログボッ</u> クス." For details on exporting and importing job logs, "ジョブログをファイルに出力する/入力する" and see "Job Log Management ダイアログボックス."

The Features of Accounting Manager

Accounting Manager is a software program that constantly communicates with managed printers to collect job logs. The collected job logs are saved to the hard disk of your computer.

You can use Accounting Manager to do the following actions.

Print Job Log Collection

This allows you to check which documents were printed from each printer, who printed them and when.

Calculation of the Total Pages Used and the Total Cost

This allows you to use the collected print job logs to calculate totals for items such as the number of pages printed, the amount of paper used and the printing costs incurred.

· Regular Data Acquisition for Print Jobs

Acquires job logs regularly.

Exporting Job Logs

You can export the collected job logs to a file.

>>>Note

- If the computer on which Accounting Manager is installed is not turned on or is in Sleep mode and the user is not logged in, the job logs cannot be collected.
- To acquire job logs without omitting any job logs, it is recommended that you install Accounting Manager on the computer used for management and always log in with the same user name.

The acquired job log is saved for the user who is logged in.

>>>Important

• Accounting Manager displays estimates for the amount of ink consumed per print and paper consumed. The actual consumption may be different.

The average error for estimates based on the Canon ink cost measurement conditions is $\pm 15\%$. Canon cannot guarantee the accuracy of these estimates. These estimates will also vary depending on the conditions of printer use.

Note also that these estimates do not include ink consumed in procedures such as forced nozzle discharges by the cleaning mechanism.

Starting Accounting Manager

Follow the procedure below to start the Accounting Manager.

Execute any of the following:

- Start from Quick Utility Toolbox
 - Click the Accounting Manager button on the Management Tool sheet in the Quick Utility Toolbox.
- Start from Application Icon
 - 1. Open the Canon Accounting Manager folder.

Open the folders in the following order: **Applications > Canon Utilities > Canon Accounting Manager**.

2. Double-click the Canon Accounting Manager icon.

Accounting Manager starts.

Note

- Quick Utility Toolbox is a Canon software application.
- When Accounting Manager is started, job logs are not acquired.

When started, the acquired information appears, starting with the most recently saved job log.

You can acquire job logs at scheduled intervals using **Scheduled Acquisition Settings** in **Advanced Printer Settings** and, as needed, by utilizing **Refresh** and **Cost Tabulation**.

• If **Resident Service Settings** is set to **Start** and you register the managed printer, job log acquisition starts.

Exiting Accounting Manager

• Selecting Quit Canon Accounting Manager from the Canon Accounting Manager menu.

>>>Note

- If the printer is being accessed when exiting, a message indicating that exiting is in progress appears. After exiting is completed, Accounting Manager exits.
- If **Start** is set in **Resident Service Settings**, job logs are acquired regularly in the background even after exiting.

Accounting Manager Basic Procedures

- Accounting Manager Basic Procedures
- Registering Printer
- Configure unit costs, including the costs of ink and paper
- Setting Units Displayed
- Setting List Display
- Resident Service Settings
- Unregistering Managed Printer

Accounting Manager Basic Procedures

The first time you use the Accounting Manager, use the following procedures to configure the settings.

1. Registering Printer

For details on how to add a managed printer, see "Registering Printer."

2. Configure unit costs, including the costs of ink and paper

For details on the unit cost settings, see "Configure unit costs, including the costs of ink and paper."

3. Setting Options Such as Units Displayed

For details on the units setting, see "Setting Units Displayed."

4. Setting List Display

For details of how to set the list display, see "Setting List Display."

5. Resident Service Settings

For details on the Resident Service Settings, see "Resident Service Settings."

This displays the required print job logs and lists the details.

>>>Note

• You can save collected job logs to a file.

For details, see "Exporting/Importing Job Logs as File."

Registering Printer

Register printers to be managed.

- 1. Click **Printer Management** button or select **Manage Printer** from **Printer** of **File**
 - menu.

Printer List			
Printer Name	Connection	Schedul Status	Add Printer
series	fe80::5586:2f7b	ON	Unregister
			Advanced Settings
			Import
			Export

The Printer Management dialog box appears.

2. Click Add Printer button.

earch Method: Bon	jour	Search
IP Address:		
inter List:		
Printer	Serial Number	Connection
-110++1180-004+-	BADM00005	Canonca
) series	AEMG00006	Canon series
series	AETA13275	Canon series
-91 10000	T38MT1038	Canoncan
1000 C 00000	T44MT1030	Canoncan
series	AEGK00001	_Canon seri
	Search Op	tions Stop Searching
		Cancel Add

The Add Printer dialog box appears.

Note

- For details on the Add Printer dialog box, see "Printer Management Dialog Box."
- 3. Select **Bonjour** in **Search Method**, and then click the **Search** button.

The -printers found appear in Printer List.

Note

- The Bonjour name for any printer with Bonjour enabled that is connected to the network will appear in **Connection**.
- If the printer you want to register does not appear, check that the printer power is turned on and check the network status, and then search again.
- If the printer still does not appear, change the **Search Method** to **Auto (IPv4/IPv6)**, **IPv4**, **IPv6**, or **USB**, and then search.

If you select IPv4 or IPv6, enter the IP address in IP Address.

- To search by SNMP Community, click Search Options, and then specify a Specify community name.
- When **Search Method** is set to **USB**, a search for local printers is performed.
- 4. Select printer to be registered from printers found and click **Add** button.

The added printers appear in Printer List in the Printer Management dialog box.

5. Click Advanced Settings with printer selected in Printer List.

Printer Name:	series	
Serial Number:	123456789	
Scheduled Acqu	uisition Settings	
🗹 Run schedi	uled job log acquisition	
Authentication		
autentication		
Password:	••••	Auth. Test
	••••	Auth

The Advanced Printer Settings dialog box opens.

6. Check Scheduled Acquisition Settings.

Check that Run scheduled job log acquisition in Scheduled Acquisition Settings is selected.

7. Set Password in Authentication.

Set a **Password** in **Authentication** if necessary.

Note

- If the job history is set to hide on the printer control panel, authentication information is required when acquiring job logs.
- For details, search for and refer to the "Administrator Password" page from the home page of the Online Manual for your model.

After setting Password, click **Auth. Test** button to check authentication.

8. Click the Register button.

Settings are applied and the Advanced Printer Settings dialog box closes.

9. Click the **OK** button.

Information is acquired, and the printer is registered.

When the printer registration is completed, job log acquisition starts.

The acquired job logs are saved to your computer.

Note

 Before acquiring job logs, Accounting Manager refers to the MAC Address to check whether the communication destination printer is the registered printer. If the MAC address is different than the one for the registered printer, job logs are not acquired.

• For details on how to unregister a managed printer, see "Unregistering Managed Printer."

Configure unit costs, including the costs of ink and paper

Configure unit costs, including the costs of ink and paper.

>>>Note

```
• Unit costs are set for each printer being managed.
```

Opening Unit Costs Dialog Box

The Unit Costs dialog box opens.

- 1. Select printer you want to register unit costs for from printer list.
- 2. Click the **Unit Costs** button or select **Unit Costs** from **Job Cost** in the **File** menu. The **Unit Costs** dialog box appears.

The Unit Costs dialog box consists of the following sheets.

 Ink sheet : → Setting the Unit Cost for Ink

 Paper sheet : → Setting the Unit Cost for Paper

 Others sheet : → Setting the Unit Cost for Items Other Than Ink and Paper

You can copy unit costs set on a printer to another printer using "Copying Unit Costs".

Setting the Unit Cost for Ink

Set the ink unit costs using the Ink sheet.

Click Ink tab to display it.

	Ink Color	Ink Tank C	Ca Unit Costs [V]	
	Blue	330	4800.000	
	Cyan	330	4800.000	
	Chroma Optimizer	330	4800.000	
	Gray	330	4800.000	
	Magenta	330	4800.000	
	Matte Black	330	4800.000	
	Photo Black	330	4800.000	
	Photo Cyan	330	4800.000	
	Photo Gray	330	4800.000	
	Photo Magenta	330	4800.000	
	Red	330	4800.000	
•	Yellow	330	4800.000	
				Apply to All Inks

To set different unit costs for each ink color

- 1. Select ink to be changed.
- 2. Edit Unit Costs and Ink Tank Capacity directly in list.

To enable editing, double-click the item to be edited.

3. Click the **OK** button.

To set the same unit cost for all the inks

- 1. Select ink color to be copied.
- 2. Click Apply to All Inks button.

The selected ink unit cost and tank capacity are applied to all ink colors.

3. Click the **OK** button.

Setting the Unit Cost for Paper

Set paper unit costs using **Paper** sheet.

Click **Paper** tab to display it.

2. Set Media Type, Paper Size, and Unit Costs.

Set Width, Height, and Number of Sheets/Rolls as necessary.

>>>Note

• For Roll Paper, specify the number of rolls in Number of Sheets/Rolls.

3. Click **Execute** button.

The unit cost settings you added are added to the Unit Cost List.

Editing Paper Unit Costs

The procedure for editing paper unit costs is shown below.

Editing the Unit Cost List in the List

1. Edit Width, Height, Number of Sheets/Rolls, and Unit Costs directly in Unit Cost List.

To enable editing, double-click the item to be edited.

2. Click the **OK** button.

When you finish editing, click **OK** button.

Editing with Edit Paper Unit Cost Dialog Box

1. Click Edit button.

The Edit Paper Unit Cost dialog box appears.

Acquire Printer Informatio		Cancel Update

- 2. Edit item to be changed.
- 3. Click the **Update** button.

When you finish editing, click Update button and close Edit screen.

4. Click the **OK** button.

Setting the Unit Cost for Items Other Than Ink and Paper

Set the costs other than ink and paper costs on the Others sheet.

Click Others tab to display it.

Unit Cost List:	Ink Paper Others
Item	Unit Costs [] Allocate
other_0	5000.000 No C
	Add Edit Delete
	Add Edit Delete

Adding Other Unit Costs

1. Click the Add button.

The Add Other Unit Costs dialog box appears.

Unit Costs [¥]:		
Add to Tabulation:	Yes ᅌ	

2. Set each item.

Set Name, Unit Costs, and Add to Tabulation.

3. Click the **Execute** button.

The unit cost settings you added are added to the Unit Cost List.

Editing Other Unit Costs

The procedure for editing other unit costs is shown below.

Editing the Unit Cost List in the List

1. Directly edit in list.

Edit Unit Costs and Allocate in Unit Cost List directly in list.

To enable editing, double-click the item to be edited.

2. Click the **OK** button.

When you finish editing, click **OK** button.

Editing with Edit Other Unit Cost Dialog Box

1. Click Edit button.

The Edit Other Unit Cost dialog box appears.

0111 00010 [1]	500.000	
dd to Tabulation	No ᅌ	

2. Edit.

Edit items to be changed.

3. Click the **Update** button.

When you finish editing, click **Update** button and close Edit screen.

4. Click the **OK** button.

Copying Unit Costs

Clicking the Copy Unit Cost button in the Unit Costs dialog box displays the Copy Unit Cost dialog box.

You can copy unit costs set on a printer to another printer.

Copy From: series	s 🗘
Сору То:	
Printer	Category
series	 ✓ Ink ✓ Paper
	☑ Others

1. Select printer to copy from.

Select the printer from which the unit costs will be copied in **Copy From**.

2. Select printer to copy to.

Select the printer to be copied to in **Copy To**.

3. Select items to be copied.

Select the items to be copied in **Category**.

4. Click Execute button.

>>>Note

• For details on each item, see "Unit Costs Dialog Box."

Setting Units Displayed

Set the units displayed in Accounting Manager.

To open the Preferences dialog box, select Preferences in the Canon Accounting Manager menu.

Setting Units

Set the units displayed in Accounting Manager on the Unit sheet in the Preferences dialog box.

00	Preferences
	View Unit Others
Date Displa	ay Format: YYYY/MM/DD
Curr	rency Unit: \$
1000	Separator: None
Decim	al Symbol:
Paper He	eight/Area: Single Specification
	Width: cm
	Height: cm
	Area: square meter
	Cancel OK

Date Display Format

Use this option to select the display format for dates.

"YYYY" indicates the year, "MM" the month and "DD" the day.

Currency Unit

Enter the currency unit.

Enter a text string up to 3 characters long.

1000 Separator

Use this option to select the symbol used as a separator in numbers.

The symbol is inserted every 3 digits.

Decimal Symbol

Use this option to select the symbol used as a decimal point.

Paper Height/Area

Select paper dimension specification from **Single Specification**, **In metric units**, or **In US customary units**.

Width

Use this to select the unit used for paper width.

Enabled when you select Single Specification in Paper Height/Area.

Height

Use this to select the unit used for paper length.

Enabled when you select Single Specification in Paper Height/Area.

Area

Use this to select the unit used for paper area.

Enabled when you select Single Specification in Paper Height/Area.

Setting List Display

Configure settings related to Accounting Manager display.

To open the Preferences dialog box, select Preferences in the Canon Accounting Manager menu.

Setting Category to Be Displayed

Set the items displayed in the Job Cost list on the main screen.

Configure the settings in Category to Be Displayed on the View sheet in the Preferences dialog box.

	P	referenc	es
	View	Unit	Others

			Cancel OK

Print Jobs Shown Per Page

Specify the number of display items per page for job costs displayed in the Job Cost list.

Tabulation Period

Set the units for the tabulation period.

Tabulation Start Date

Set the tabulation start date for Tabulation Period.

>>>Note

• You can display job logs for each period set in **Tabulation Period** and **Tabulation Start Date**.

Category to Be Displayed

Specify the job log items to be displayed in job cost.

Selected items appear in the Job Cost list on the main screen starting from the left according to the list's sort order.

Resident Service Settings

Configure the Resident Service Settings.

The resident service must be started to acquire job logs regularly.

Starting the resident service enables the resident service to start automatically when the user logs in.

>>>Note

- For details, see "<u>Resident Service Settings Dialog Box</u>.".
- The resident service must be configured for each logged in user.

To acquire job logs regularly, remain logged in with the user name that started the service.

Unregistering Managed Printer

Unregisters managed printers.

Printer Management button or select Manage Printer from Printer of File menu.

elect the printer, a	and then click [Unreg	gister].	
rinter List			
Printer Name	Connection	Schedul Status	Add Printer
series	fe80::5586:2f7b	ON	Unregister
			Advanced Settings
			Import
			Export

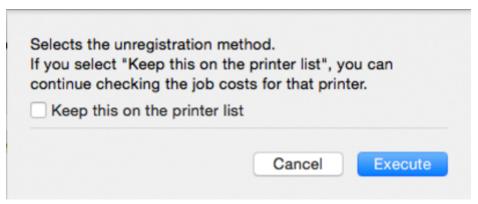

The Printer Management dialog box appears.

2. Select printer to unregister.

Select the printer you want to unregister from the printer list.

3. Click Unregister button.

The Select Unregistration Method screen appears.

To keep the selected printer in the printer list even after it was unregistered, select the Keep this on the printer list check box.

>>>Note

• Job logs are not acquired from the printer after it is unregistered.

• If you selected **Keep this on the printer list**, the printer remains in the printer list labeled as **(unregistered)**. You can view job logs acquired prior to unregistration even after the printer is unregistered.

If it is not necessary to view the job logs, leave the **Keep this on the printer list** check box cleared.

• To re-register a printer to be managed that was unregistered with the Keep this on the printer list setting, delete it from the list, and then re-register it.

To delete the managed printer from the printer list, open the **Select Unregistration Method** screen, and clear the **Keep this on the printer list** check box.

4. Click Execute.

The settings are applied to the printer list.

5. Click OK.

The selected printer is unregistered.

>>>Note

• For details on the Printer Management dialog box, see "Printer Management Dialog Box."

Various Accounting Manager Features

- Filtering Settings
- M Tabulating Costs
- Exporting Cost Tabulation Results to CSV File
- Exporting/Importing Job Logs as File

Filtering Settings

You can display filtered items by configuring the **Filter Job Logs**.

1. Click Filter Job Logs on main screen.

The Filter Job Log dialog box appears.

Printer:	Period:	Account ID ᅌ
✓ All ✓ series	 All 2015/07/01~2015/07/31 ✓ 2015/08/01~2015/08/31 ✓ 2015/09/01~2015/09/30 ✓ 2015/10/01~2015/10/31 	✓ All✓ IJS

2. Select objects to be displayed.

Select the items to be displayed in the Job Cost list on the main screen.

Specify a range for **Printer**, **Period**, and **Account ID/Account ID2/Owner** for each item.

3. Click OK.

The job log selected in the Job Cost list on the main screen appears.

Tabulating Costs

You can specify the tabulation criteria and display the cost tabulation results in the **Cost Tabulation** dialog box.

Click the **Cost Tabulation** button or select **Cost Tabulation** in **Job Cost** from the **File** menu to open

the **Cost Tabulation** dialog box.

Printer:	Period:	Account ID 😂
✓ All ✓ series	 All 2015/07/01~2015/07/31 2015/08/01~2015/08/31 2015/09/01~2015/09/30 2015/10/01~2015/10/31 	☑ Ali ☑ IJS
Total Ink Cost [¥]: 5.61	48 Target Number of Job: 18 6 Total Ink Consumed [ml]: 2.160 46.832 Total Paper Consumed [squa]: 0.000	re meter]:1.310

Setting Tabulation Criteria and Tabulating Cost

1. Specify tabulation criteria.

Specify the criteria for tabulation targets in **Printer**, **Period**, and **Account ID/Account ID2/Owner**.

2. Click the **Tabulate** button.

The tabulation results for the specified criteria appear at the bottom of the **Cost Tabulation** dialog box.

3. Export tabulation results to file.

Export the tabulation results to a file if necessary.

You can export the tabulation results to a CSV file by clicking the **Export** button.

>>>Note

• If there is even one record for which a cost cannot be calculated, because the unit cost is not set, "Cannot calculate the values to be tabulated because a unit cost has not been set." appears.

In this case, set the unit cost, and then tabulate the cost again.

➡ Configure unit costs, including the costs of ink and paper

You can check the items without unit costs by clicking Unspecified Unit Cost.

00		Unspecified Unit Cost		
Unspecifie	ed Unit C	ost List:		
Printer		Item	Details	
1110	series	Paper	Plain Paper General Purpose	
100-100	series	Paper	Plain Paper A3	
			ОК	

• If an overflow of records for a tabulation target has occurred, "Cannot calculate the values to be tabulated because a unit cost has not been set." also appears.

>>>Important

• If "Cannot calculate the values to be tabulated because a unit cost has not been set." appears because an overflow occurred in the records of the tabulation target, nothing appears in Unspecified Unit Cost List.

Exporting Cost Tabulation Results to CSV File

You can export cost tabulation results to a file in CSV format. You can use this file when you want to perform detailed analysis using tools such as spreadsheet software.

You can export the cost tabulation results to a CSV file by clicking the **Export** button in the **Cost Tabulation** dialog box.

1. Open Cost Tabulation dialog box.

Select Cost Tabulation in Job Cost from the File menu to open the Cost Tabulation dialog box.

Printer:	Period:	Account ID ᅌ
✓ All ✓ series	 All 2015/07/01~2015/07/31 2015/08/01~2015/08/31 2015/09/01~2015/09/30 2015/10/01~2015/10/31 	☑ All ☑ IJS
Total Ink Cost [¥]: 5.616	3 Target Number of Job: 18 Total Ink Consumed [ml]: 2.160 5.832 Total Paper Consumed [squa 0.000	re meter]:1.310

2. Set tabulation criteria.

Specify the **Printer**, **Period**, and **Account ID/Account ID2/Owner** for cost tabulation.

3. Click the Tabulate button.

The cost tabulation results appear.

Note

- Clicking the **Cancel** button in the progress screen that displays the processing progress cancels acquisition and tabulation and displays blank tabulation results.
- If there is even one record in the tabulation target for which a cost cannot be calculated, because the unit cost is not set, "Cannot calculate the values to be tabulated because a unit cost has not been set." appears.
- If an overflow of records for a tabulation target has occurred, "Cannot calculate the values to be tabulated because a unit cost has not been set." also appears.

4. Export cost tabulation results.

Click the Export button.

Specify a file name and destination, and then click the **Save** button.

You can export the tabulation results to a file in CSV format.

>>>Note

• If the tabulation results do not appear, the **Export** button is disabled.

Exporting/Importing Job Logs as File

You can export and import collected job logs as a file. This file can be used if you are replacing the computer used for management, changing the job log destination, or increasing hard disk capacity.

Exporting Job Logs

You can export collected job information with the Export sheet in the Job Log Management dialog box.

1. Open Export sheet in Job Log Management dialog box.

Select Manage Job Logs from the File menu.

Click the Export tab in the Job Log Management dialog box.

00	Job Log Management
	Import Export Delete
Exports the jo	b logs.
Destination	Browse
Target Printer:	All
Target Period:	5/ 8/2017 - 7/24/2017
	<u>Olean</u>
	Close Execute

2. Specify destination.

Specify the destination for the job logs in **Destination**.

3. Specify target printer.

Specify the printer for export in Target Printer.

Selecting All includes all managed printers.

- Printers that were previously registered as managed printers but are no longer registered appear with their MAC addresses.
- 4. Specify target period.

Specify the Target Period.

5. Execute export.

Click the **Execute** button.

Job logs are saved in the folder specified in **Destination**.

Importing Job Logs

You can import an exported job information file with the **Import** sheet in the **Job Log Management** dialog box.

1. Open Import sheet in Job Log Management dialog box.

Select Manage Job Logs from the File menu.

Click the Import tab in the Job Log Management dialog box.

00	Job L	og Manage	ement
	Import	Export	Delete
Imports the job logs			
File:			Browse
			Close Execute

2. Specify file.

Specify the file to be imported in **File**.

Click the **Browse** button to open the dialog box for specifying a file.

3. Execute import.

Click the **Execute** button.

The job log specified in **File** is imported.

Displaying Various Information

- Checking Unit Costs Set on Printer
- Checking Consumption
- M Checking Errors During Job Log Acquisition

Checking Unit Costs Set on Printer

You can display a list of unit costs set for the selected printer in the Specified Unit Cost dialog box.

- 1. Select printer whose unit costs will be checked.
- 2. Display Specified Unit Cost dialog box.

Select Specified Unit Cost in Job Cost from the File menu.

The Specified Unit Cost dialog box appears.

ltem	Details	Unit Cos	Allocate

>>>Note

• For details on Specified Unit Cost, see "Specified Unit Cost Dialog Box."

Checking Consumption

You can check the ink and paper consumed for each printer or for each job.

Checking Ink and Paper Consumed Per Printer

You can check the consumed ink and paper up to present for the selected printer in the **Ink and Paper Consumed** dialog box.

Note

• For details, see "Ink and Paper Consumed Dialog Box."

Checking Consumption Per Job

The **Job Properties** dialog box displays detailed information about the selected job, including cost information.

Note

• For details, see "Job Properties Dialog Box."

Checking Errors During Job Log Acquisition

Errors that occur during job log acquisition can be displayed in the **Check Operation Status** dialog box.

Click Check Operation Status in the Tools menu to display.

>>>Note

• For details, see "Check Operation Status Dialog Box."

Cost

The cost of printing.

• Total cost of job: (ink + paper + other costs)

If the cost cannot be calculated because the ink and paper unit costs have not be set, *** appears.

Printer Name

The name of the printer that printed the job appears.

Account ID

The Account ID set for the job appears.

>>>Important

• When a user (the person printing) sends a job to the printer, they must include identifying information connected to the person who sent the job (Account ID, Account ID2, or Owner).

For details, see the User Manual for your model from the Home of the Online Manual.

Document Name

This is the name of the printed document.

Printing Results

The printing results for the job appears.

Displays **Complete** if the printing is executed, **Canceled** if the printing is not executed, **Error** if an error occurs, and **Warning** if an error occurs in the print job data.

Media Type

This is the type of paper used in printing.

The paper name based on the information acquired from the printer appears.

>>>Note

· Displays Unknown Paper if the relevant paper name cannot be acquired.

Printer Paper Size

Size indicating the print area of the job.

Paper Consumed

This is the area of paper used in printing.

Paper Width

This is the width of paper used in printing.

Paper Height

This is the length of paper used in printing.

Ink Consumed

Amount of ink used in printing (total consumption for each color).

Owner

The sender (owner's name) of the job.

The user name of the user logged into the OS is assigned.

Print Job Start Time

Time printing started.

The Print Job Start Time that will appear in the Job Cost list is as follows:

When Time Zone Set on Printer

Displays the time converted from the time zone set on the computer running **Accounting Manager**.

When Time Zone Not Set on Printer

Displays the time in the time zone set on the computer running Accounting Manager.

Print Time

Time it took to print the job.

Pages

The number of pages printed.

The number of impressions (number of surfaces) for the job appears.

For a job where 3 copies of a 2-page original are printed, it is "6".

Print Quality

Level of print quality for the job.

Paper Cost

The cost of paper used for printing.

Total Ink Cost

Total cost of ink used in printing (total ink cost for each color).

Total of Other Costs

The total value of costs other than paper and ink.

Ink Cost Details

The cost per color of ink appears.

Ink Consumption Details

The amount of each color of ink used.

job_description

The ID set for the job appears.

Print Priority

The **Print Priority** settings selected when printing appear.

Paper Source

The Paper Source when printing appears.

Account ID2

Displays the Account ID2 specified in the job.

>>>Note

- The items shown vary depending on your model.
- In the <u>Preferences Dialog Box</u>, set the number of jobs, items, and sort order displayed in the Job Cost list.
- If all of the jobs extracted based on the filtering criteria do not fill up the configured number of jobs, they all appear on one page. The most recent job logs on the first page appears if the configured number of jobs is exceeded. The portion exceeding the configured number of jobs appears on the second and subsequent pages.
- If overflow occurs in the calculation results, --- appears.

(5) Status Bar

Messages including notifications that job log acquisition errors have occurred, descriptions of functions, job selection status, and last update date/time appear.

Job(s): 0/20 Date of Last Update: 2016/01/06 14:34:19

Printer

All and the list of printers registered as managed printers in the Printer Management dialog box are displayed.

Period

Displays a period list created based on **All** or Tabulation Period and Tabulation Start Date settings and the print date for the oldest record among the job logs saved to the local database.

Account ID/Account ID2/Owner

In the drop-down menu, specify either Account ID, Account ID2, or Owner as extraction criteria.

The Account ID, Account ID2, or Owner list will appear, including an All option, as well as all printers and job logs saved to the local database.

Total Job Cost

The total costs for extracted jobs appears.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Target Number of Job

The total number of extracted jobs appears.

Total Ink Cost

The total ink costs for extracted jobs appears.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Total Ink Consumed

The total ink consumed for extracted jobs appears.

Total Paper Cost

The total paper costs for extracted jobs appears.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Total Paper Consumed

The total paper consumed for extracted jobs appears.

Total of Other Costs

The total costs other than ink and paper for extracted jobs appears.

Export button

Exports the tabulation results and the job cost records of the extracted jobs in CSV format.

Enabled if tabulation results exist.

Unspecified Unit Cost button

Calculates costs according to extraction criteria and lists unit costs with inadequate settings.

Job logs are not acquired from the printer at this time.

The list of unspecified unit costs appear in the Unspecified Unit Cost Dialog Box.

Tabulate button

Tabulates costs.

To acquire job logs from the target printers, click the **Tabulate** button.

Extracts job logs, calculates costs, and displays tabulation results when job log acquisition from all target printers is completed.

Note

- Clicking the Cancel button in the progress screen that displays the processing progress cancels
 acquisition and tabulation and displays blank tabulation results.
- If there is even one record in the tabulation target for which a cost cannot be calculated, because the unit cost is not set, "Cannot calculate the values to be tabulated because a unit cost has not been set." appears.
- If an overflow of records for a tabulation target has occurred, "Cannot calculate the values to be tabulated because a unit cost has not been set." also appears.

>>>Note

- If overflow occurs in the calculation results, --- appears.
- If --- appears, check the unit costs and tabulation period settings are appropriate.

Unspecified Unit Cost Dialog Box

When the job cost calculation is performed using the criteria specified in the Tabulate screen, inadequate unit cost settings are extracted and appear in the **Unspecified Unit Cost** dialog box.

• • •	Unspecified Unit Cost

Document Name

The name of the job appears.

Printer

The name of the printer that printed the job appear.

Printing Results

The printing results for the job appears.

Owner

The name of the owner of the job appear.

Account ID

The Account ID for the job appears.

Account ID2

The Account ID2 for the job will appear here.

Print Job Start Time

The print start time for the job appears.

The Print Job Start Time that will appear is as follows:

When Time Zone Set on Printer

Displays the time converted from the time zone set on the computer running **Accounting Manager**.

When Time Zone Not Set on Printer

Displays the time in the time zone set on the computer running Accounting Manager.

Print Time

The print time for the job appears.

Calculates the print time based on the print start time and the print completion time included in the job cost.

Pages

The number of pages for the job appears.

Print Quality

The level of print quality for the job appears.

Output Image Size

The output image size for the job appears.

Displayed according to unit cost settings based on the logical paper size included in the job cost.

Total Job Cost

The total costs for target jobs appear.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Total Paper Cost

The total paper costs for target jobs appear.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Total Ink Cost

The total ink costs for target jobs appear.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Total of Other Costs

The total value of other costs for target jobs appears.

Total Ink Consumed

The total value of ink consumed for target jobs appears.

Total Paper Consumed [Area]

The total value of paper consumed for target jobs appears.

Total Sheets of Paper Consumed [Converted to A4 Size]

Calculates the A4 conversion value from the total value of the area of paper consumed for target jobs.

Paper Width

The width of the paper used by the job appears.

Displays the logical paper width information and the width information for paper used, according to the unit settings based on the information acquired from the printer.

Paper Height

The length of the paper used by the job appears.

The cut sheet length information and the width information for paper used appears according to the unit settings based on the information acquired from the printer.

Job Cost and Consumption Details

The cost and total consumption per ink color and per media type appear.

Item

The ink color and paper name appear.

Amount Consumed

The total consumption per item appears.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

Cost

The total costs for each item appear.

*** appears if jobs for which the cost cannot be calculated because the unit cost is not set are included in the target jobs.

>>>Note

• If overflow occurs in the calculation results, --- appears.

• If --- appears, check the unit costs and tabulation period settings are appropriate.

Unit Costs Dialog Box

Set the unit costs used to calculate job cost in the **Unit Costs** dialog box. Set the unit costs for ink, paper, and items other than ink and paper.

Select Unit Costs in Job Cost from the File menu to open the Unit Costs dialog box.

The Unit Costs dialog box consists of the following sheets.

- Ink sheet
- Paper sheet
- Others sheet
- <u>Common to All Sheets</u>

Ink sheet

nit (Cost List:	Ink Paper	r Others

				Apply to All Inks
quir	e Printer Information	Imp	ort Exp	ort Copy Unit C

Ink Color

Ink Color and an icon indicating the ink color appear.

The ink list that appears is acquired from the selected printer.

Ink Tank Capacity

The ink tank capacity appears according to the units setting.

Unit Costs

The unit costs for Ink Color and Ink Tank Capacity appear.

If the unit costs are not set, Not set appears.

To change the unit costs settings, edit the list directly.

Apply to All Inks button

Applies the currently selected **Unit Costs** and **Ink Tank Capacity** in **Ink Color** to all ink colors displayed in **Unit Cost List**.

Disabled if one ink or less is displayed in Unit Cost List or no ink has been selected.

Media Type

The paper name appears.

The name that appeared in the printer driver is applied.

Size

General Purpose, Regular Size Name, or Roll Paper Width Name appears.

Width

The paper width appears according to the units setting.

You can edit the list directly if Size is General Purpose.

Height

The paper length appears according to the units setting.

You can edit the list directly if Size is General Purpose or Roll Paper Width Name.

Number of Sheets/Rolls

The number of sheets in a package appears when the price per paper package is set.

If you select **Roll Paper**, the number of rolls appears.

Unit Costs

The price per paper package appears.

The unit cost settings you added are added to the Unit Cost List.

Add button

Adds a new unit cost setting for paper.

The unit cost settings you added are added to Unit Cost List.

For details on Add Paper Unit Cost, see "Add Paper Unit Cost Dialog Box."

Edit button

Enables editing of the unit cost settings for paper.

Delete button

Deletes the selected paper unit costs.

Deleted paper unit costs are deleted from Unit Cost List.

Others sheet

Item

Item names set for unit costs appear.

Unit Costs

The unit costs for item names appear.

Allocate

Yes or No appears for whether to include this unit cost setting when calculating job costs.

To change the settings, change them directly in the list.

Add button

Adds a new other unit cost setting.

The unit cost settings you added are added to the Unit Cost List.

Edit button

Enables editing of the settings for this unit cost.

Delete button

Deletes the selected unit cost settings.

Deleted unit cost settings are deleted from Unit Cost List.

Common to All Sheets

Import button

Imports unit cost settings.

Export button

Exports unit cost settings.

Copy Unit Cost button

Copies unit costs.

For details on Copy Unit Cost, see "Copy Unit Cost Dialog Box."

Acquire Printer Information button

Acquires printer information.

OK button

Saves changes to the unit cost settings and closes the Unit Costs dialog box.

Cancel button

Discards changes and closes the Unit Costs dialog box.

Add Paper Unit Cost Dialog Box

Adds a new unit cost setting for paper.

Media Type:	Matte Photo Paper	
	Other Media:	
Paper Size:		
General Purpose		
O Roll Paper		:
O Cut Sheet	11"x17" (Margin 25)	;
Width [cm]

Unit Costs []:		
Acquire Printer Informatio	on Cance	Execute

Media Type

Specify the Media Type.

A list of the media types supported by the target printer appears.

Other Media

To set a unit cost for a paper not displayed in **Media Type**, select Other Media and enter the paper ID.

You can check the paper ID on the **Unspecified Unit Cost** screen or in **Unit Cost List** on the **Paper** tab of the **Unit Costs** screen.

"Unknown Paper [Paper ID]" appears for paper not appearing in **Media Type**, so enter this paper ID.

Paper Size

Set the size type for the paper.

Select General Purpose, Roll Paper, or Cut Sheet for the size type.

Width

Specify the paper width.

If Roll Paper or Cut Sheet is selected in Paper Size, it is entered automatically.

Height

Specify the paper length.

If Cut Sheet is selected in Paper Size, it is entered automatically.

Number of Sheets/Rolls

Specify the count per paper package (number of sheets).

If Roll Paper is selected in Paper Size, specify the number of rolls.

Unit Costs

Enter the price per paper package.

Copy Unit Cost Dialog Box

Specifies the printer and items, and copies the unit cost settings.

Copy From: series	\$
Сору То:	
Printer	Category
series	🗸 lnk
	Paper
	Others

Copy From

From the list of registered printers (same printers as displayed in the printer list on the main screen), select the printer to copy from.

Сору То

Select the printer to copy to.

Category

Select the items to be copied.

You can select Ink, Paper, and Others individually.

>>>Note

• If you copy unit costs, all the unit cost settings on the printer copied to will be overwritten with the unit cost settings on the printer copied from.

Resident Service Settings Dialog Box

You can display the operating status of the resident service, and control the start and stop of the resident service in the **Resident Service Settings**.

To open the **Resident Service Settings** dialog box, select **Resident Service Control** in the **Tools** menu.

The resident service must be started to acquire job logs regularly.

e C Resider	nt Service Settings
The service program	m is running.
	Start Stop
	Close

Start button

Starts the resident service.

The resident service starts automatically at login.

Stop button

Stops the resident service.

>>>Important

- If the user logs out, job logs cannot be acquired.
- If resident service is set to **Stop**, job logs will not be acquired regularly even if **Scheduled Acquisition Settings** is set to **ON** for the managed printer.

To acquire job logs regularly, remain logged in with the user name that started the service.

Printer Management Dialog Box

You can register and unregister managed printers.

You can also change settings, and export and import information for managed printers.

Printer Management Dialog Box

Click the **Printer Management** button or select **Manage Printer** in **Printer** from the **File** menu to open the **Printer Management** dialog box.

Printer List	and then click [Unreg	gisterj.		
Printer Name	Connection	Schedul	Status	Add Printer
series	fe80::5586:2f7b	ON		Unregister
				Advanced Settings
				Import
				Export

Printer List

Displays the list of managed printers.

Printer Name

The printer name appears.

Connection

The found printer address information (connection) appears.

The **Bonjour** name for printers connected via **Bonjour**, the IP address for printers connected via **IPv4** and **IPv6**, and the connection port name for printers connected via **USB** will appear.

Scheduled Acquisition

ON appears for printers performing scheduled acquisition and **OFF** appears for printers not performing scheduled acquisition.

Status

Information about the printers found appears.

Add Printer button

The Add PrinterDialog Box appears.

Printers added in the Add Printer dialog box appear in the printer list.

Unregister button

The selected printer is removed (unregistered) from the managed printers.

You can also leave unregistered printers in the printer list and continue to check job costs.

Disabled if no printers are selected or if multiple printers are selected.

Advanced Settings button

The Advanced Printer Settings Dialog Box appears.

You can check and change **Printer Name**, check **Serial Number**, check **Scheduled Acquisition Settings**, set **Authentication Password**, and perform **Auth. Test**.

Disabled if no printers are selected or if multiple printers are selected.

Import button

Imports the managed printer(s) from a file.

The managed printers that are imported in **Printer List** appears.

>>>Important

 When importing a printer connected with IPv6, you must turn on the printer and establish communications.

If you import while communications are not established, **Not Found** appears under **Status** in the **Printer List**, and the printer cannot be registered. If this happens, temporarily delete the printer from the **Printer List** with the **Unregister** button, turn on the printer, and import again after the communications have been established.

Export button

Exports the managed printers displayed in **Printer List** to a file.

Note

• The print list to be exported does not include the authentication password used at the time of job log acquisition.

After importing, an authentication password must be set.

• A printer connected by USB cannot be exported.

Add PrinterDialog Box

Search for printers to be registered in the printer list on the main screen, and register managed printers.

Click Add Printer button on Printer Management dialog box to display Add Printer dialog box.

arch Method: Bon	ijour	Search

		Cancel Add

Search Method

Select the printer search method.

IP Address

Enter an IP address.

Disabled if something other than IPv4 or IPv6 is selected in Search Method.

Search button

Searches for printers using the selected **Search Method**.

Printer List

A list of printers found appears.

Printer

The model names of the printers found appears.

Serial Number

The serial numbers of printers found appear.

Connection

The found printer address information (connection) appears.

The **Bonjour** name for printers connected via **Bonjour**, the IP address for printers connected via **IPv4** and **IPv6**, and the connection port name for printers connected via USB will appear.

Stop Searching button

Click to stop the search.

The search stops after waiting until the information acquisition is completed for printers that have been found already.

Search Options Button

Opens the Search Options dialog box.

Configure this when searching by **SNMP Community**.

Add button

Closes the Add Printer dialog box.

Printers selected in the printer list appear in **Printer List** of the **Printer Management** dialog box as managed printers.

Advanced Printer Settings Dialog Box

You can configure advance settings for managed printers.

Printer Name:	series	
Serial Number:	123456789	
Scheduled Acq	uisition Settings	
Run sched	luled job log acquisition	
	luled job log acquisition	
	••••	Auth. Test
Authentication	••••	Auth. Test

Printer Name

Specify the printer's display name in Accounting Manager.

Serial Number

The serial numbers of printers appear.

Scheduled Acquisition Settings

Set whether to perform scheduled acquisition of job logs.

To stop regular acquisition of job logs, clear the Run scheduled job log acquisition option.

>>>Important

• Scheduled acquisition settings are enabled when the printer is registered. Job logs cannot be collected if the scheduled acquisition settings are disabled.

Authentication

Set an authentication password for job log acquisition.

>>>Note

- Enter the password set for the printer.
- For details, search for and refer to the "Administrator Password" page from the home page of the Online Manual for your model.

>>>Important

• If the job history is set to hide on the printer control panel, authentication information is required when acquiring job logs.

Auth. Test button

To perform an authentication test for job log acquisition, enter the **Password** and click the **Auth. Test** button.

The authentication test results for job log acquisition appear in a message dialog box.

Register button

Changes the settings for the managed printer, and then closes the **Advanced Printer Settings** dialog box.

Check Operation Status Dialog Box

Select Check Operation Status from the Tools menu to display.

A list of errors that occurred during job log acquisition appear.

		閉じる 確認

Operation Status

The acquisition status in a list appear.

Printer

The printer name appears.

Time of Error

The time the error occurred appears according the display format setting.

If the same error occurred multiple times, displays the time the error last occurred.

Details

A description of the error appears.

Note

• The numbers that appear at the end of **Details** are added for internal identification in the software.

Confirm button

Errors currently shown do not appear in the future.

Preferences Dialog Box

Specify your preferences (settings related to displayed content and displayed items) for **Accounting Manager**.

This dialog box consists of the View, Unit, and Others sheets.

To display, select **Preferences** from the **Canon Accounting Manager** menu.

Print Jobs Shown Per Page

Specify the number of display items per page for job costs displayed in the list.

Tabulation Period

Set the units for the tabulation period.

Tabulation Start Date

Specify the tabulation start date for Tabulation Period.

The items that can be specified correspond to the items set in **Tabulation Period** and change dynamically.

>>>Note

• If you specified **Annually**, "1-12" (January to December) is listed.

Category to Be Displayed

Specify the job log items to be displayed in job cost.

Selected items appear in the list on the main screen according to the list's sort order.

Up button

Moves up the selected item one row.

Down button

Moves down the selected item one row.

Unit sheet

Date Display Format

Use this option to select the display format for dates.

"YYYY" indicates the year, "MM" the month and "DD" the day.

Currency Unit

Enter the currency unit.

Enter a text string up to 3 characters long for the currency unit.

1000 Separator

Use this option to select the symbol used as a separator in numbers.

Decimal Symbol

Use this option to select the symbol used as a decimal point.

Paper Height/Area

Select how to specify the paper dimensions.

Select Single Specification to specify the units for Width, Height, and Area.

Select In metric units to display units in mm for Width, m for Height, and square meter for Area.

Select In US customary units to display units in inch for Width, ft. for Height, and square feet for Area.

>>>Note

• The unit for **Height** will appear as **mm** when you select **In metric units** and as **inch** when you select **In US customary units** in all dialog boxes other than the **Unit Costs** dialog box and **Specified Unit Cost** dialog box.

Width

Use this to select the unit used for paper width.

Enabled when you select Single Specification in Paper Height/Area.

Height

Use this to select the unit used for paper length.

Enabled when you select Single Specification in Paper Height/Area.
