CHOOSE A CONFIGURATION TO MAXIMISE YOUR WORKGROUP OR DEPARTMENT'S PRODUCTIVITY

WHY OKI?

Oki has been in business for over 120 years. We specialise in print-based business communication with a commitment to bringing fast quality mono and colour printing to the workplace. That's why our products reflect a special understanding of day-to-day business requirements. It's why we have a dealer network providing excellent local support and service. It's also why buying from Oki isn't just a sensible choice, it's a safe decision.

THINK OKI. THINK CLARITY.

Whether your business is a start-up or a multinational, we have the products to suit your needs from dot matrix printers to mono and colour multi-functional units. Because we have such a diverse product range we have colour-coded our product segments to help you save time. When it's time to add another printer to your range or to check out the latest advances in technology on our website, simply use the following colour guide.

B8000 SERIES MONO PRINTERS

---> B8300

DEPARTMENTAL PRINTING SYSTEM

INTEGRATED

MONO PRINT

SOLUTION

VERSATILITY

The B8300 is an extremely versatile printer that enables users

to benefit from fast print speeds (45ppm for A4 and 20ppm for A3) and a wide range of finishing options to tailor their print outputs to the exact format required. Pages can be printed double-sided, collated, stapled, holepunched and even centre folded and stapled to make booklets, mailers and newsletters.

This versatility allows businesses to bring many print applications in-house, saving time and money.

Choose from a wide range of paper supply options to suit the task in hand. The maximum input capacity, an impressive 3,100 sheets, makes long periods of unattended printing possible.

Where space is at a premium, small offices can utilise the compact 500 sheet multipurpose tray maintaining the option to upgrade in A COMPLETE the future.

> The B8300 delivers pin-sharp images thanks to its 1200dpi quality print resolution and smoothing technology. Genuine Adobe PostScript 3 ensures compatibility with desktop publishing and graphics applications,

and fast printing of Adobe Acrobat (PDF) documents.

The competitive cost of ownership, together with driver functions for toner saving and the ability to print both doublesided and multiple pages on one sheet make the B8300 the cost-effective solution for mono departmental printing.

printer drivers make the printer easy to understand and easy

to use. The driver includes useful features such as 'proof and print' – allowing a single copy to be printed and checked before starting a long print run.

The B8300 also offers various features to reduce printer management workload. The printer has a built in web-server that allows the administrator to view information such as consumables and

machine status and enables features such as paper

specifications, languages and network settings to be configured via an internet browser. The administrator can also deactivate the printer operator panel to ensure settings are not altered.

The B8300 is compatible with Oki's free network printer management software – PrintSuperVision.

This highly efficient management software provides a wealth of functions to assist in the day-to-day support of Oki and other brands of printers.

Use of PrintSuperVision reduces costs and improves printer efficiency, thereby increasing staff productivity. Network access permitting, the system can be used from anywhere in the

world, even over the Internet.

The B8300's highly featured but simple to use graphics based
