A3/A4	✓
Colour/Mono	✓
Prints A6 to 1321mm, up to 360gsm	✓
1 - 30+ users	✓

The printer for your everyday office printing and your full colour marketing communications

The C911dn is a four-colour digital LED printer designed for a wide range of in-house applications. It's capable of handling a variety of media, ranging from common A4/letter/legal up to 360gsm, 3" x 5" cards, and 1.3m banners. HD Colour technology renders stunning results with more saturated colours and finer details, making the C911dn perfect for office users and departments with a need for excellent colour. The C911dn is ideal for general office printing and the high quality needed for your marketing communications.

Its fast speed, up to 50ppm in colour and 28ppm in mono, provides you with the printer technology to deal with even the heaviest tasks. The auto duplex and large-capacity paper tray reduce human intervention, and the built-in network function makes it easy for your office to use, share and manage the printer. Operation is easy and intuitive, thanks to the conveniently placed buttons, and high-resolution colour LCD interface for menu navigation and setting selection.

Stunning high definition colour

The C911dn is built using OKI's award winning digital LED technology that produces the sharpest and most vibrant print output available. This combined with our Multi-Level ProQ technology, enables you to have complete control over the quality of your printed materials, resulting in stunning high definition and colour depth.

Speed that you can rely upon

Many printing devices compromise quality of output and media handling capability for speed but not anymore. The C911dn offers the highest print speeds on the market of up to 50ppm without compromising on quality.

Media flexibility to beat all others

The C911dn beats the competition hands down when it comes to media flexibility. You can now print in-house on a complete range of media weights up to 360gsm single sided and 320gsm duplex, heavier than any comparable printer. Add to this media sizes from A6 to SRA3, and banners up to 1.3m, you can now print on a range of applications in-house, on-demand and at a low cost.

More Convenience

The auto duplex provides enhanced convenience. Front-accessible consumables make changing or replacing toner cartridges and image drums quick and easy. The paper capacity can be expanded from the standard 830 sheets, up to 2,950 sheets with optional trays.

Features at a glance

	C911dn
Print speed	A4: 50ppm mono/colour; A3: 28ppm mono/colour
Time to first print	8 seconds or less (colour/mono)

Business Printing Specialists

OKI's printer division is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition, POS and dot matrix printers complete our range of print solutions. These best-in-class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

3 year warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests. We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years at no extra cost to you. Simply register your product within 30 days of purchase. For further information please visit: WWW.OKI.CO.UK/WARRANTY

High Definition Colour

High Definition Colour is OKI's own unique set of market defining hardware and software technologies. Together, these components deliver unsurpassed colour printing simply, intelligently, and with perfect results.

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.
