High speed, high volume printer
for high quality colour printing in the office

The C9655 is the perfect addition to any business. This high performance, cost effective colour printer has the speed, volume and flexibility to handle all the day's demands with ease – be it general office printing or in-house creative graphics work.

Meeting a wide variety of business print needs, the C9655 can produce professional looking documents of all sizes, including large format spreadsheets, A4 booklets with heavyweight covers, 1200mm long Gantt charts and oversized A3 designs.

With this outstanding versatility comes the utmost reliability. The C9655 incorporates advanced digital LED technology and a single-pass paper path that ensures smooth, trouble free working. High levels of control are also built in to provide essential network security and prevent unauthorised use.

Four models are available, including duplex versions for easy double-sided printing including booklets and a top of the range model with additional paper trays for volume printing and easy changing of media.

The C9655. The heart of creative printing.

Handles multiple media.
Meets the day's demands

Whatever the printing task, the C9655 has the capacity to handle it. Offering extreme flexibility in terms of paper size and weight, enabling creative in-house printing on a wide range of media. Print on A6 paper right up to oversized A3 sheets, or on banners up to 1200mm in length. Use heavy paper stock of up to 300gsm for booklet covers, packaging, point of sale and other print items. This extreme flexibility also extends to finishing, with a number of options available, including saddle-stitch, fold, staple and hole-punch to give documents that professional touch.

- Paper sizes from A6 to oversized A3 (328 x 453mm), plus 1200mm long banners

- Print on stock from 64 to 300gsm

- Easy to use bypass tray for trouble-free insertion of specialist media

- Automatic two-sided printing on media up to 188gsm (optional on C9655n)

- Optional paper trays increasing capacity up to 2,880 sheets

- Optional finisher for automatic hole punching, folding, saddle stitching and booklet making

Exceptional colour. High performance printing

The C9655 produces perfect colour and print quality, every time. Excellent A4 print speeds of 36ppm colour and 40ppm mono will maximise the productivity of the workgroup, keeping the work flowing. The C9655 offers highly accurate colour results, incorporating Graphic Pro colour management which provides the tools to download colour profiles to the printer's Hard Disk Drive for specific colour matching. The unique combination of ProQ2400 Multi-level technology and High Definition toner gives a better level of detail, greater colour depth, reduced grain and a high gloss feel. This means exceptional print results, each and every time.

- A3 print speeds of 19ppm in colour and 21ppm mono (up to 36ppm in colour and 40ppm mono for A4)

- In-built Graphics Pro colour management firmware for colour matching and managing ICC profiles

- 40GB Hard Disk Drive for storing data, such as colour profiles (standard on C9655hdn, C9655hdtn)

- ProQ2400 multi-level output quality, 1200 x 600dpi print resolution

- Microfine High Definition toner and high precision image drums

- 512MB RAM and 800MHz processor means large print jobs are processed efficiently and easily

Protect the data. Control the colour

In a busy office, confidentiality and unauthorised use are important issues. The C9655 has the essential controls in place to safeguard documents and to monitor and control printing costs. Security features such as Secure Erase, Data Encryption and Password Protection all help protect confidential data and prevent unauthorised access. Three powerful utilities are included as standard to help you monitor your printer, keep control of costs and decide who can print in colour.

- Secure Print function allows confidential documents to remain that way

- Colour Access Policy Manager (CAPM) software for controlling and monitoring user access rights

- PrintSuperVision for monitoring, reporting and managing networked printers in real-time

- Print Control allows you to control your print costs and usage

Remarkably easy to control and print

Everything about the C9655 has been designed with the user in mind – from setting controls to changing consumables. The informative display panel is clear and simple to use, allowing users to perform seemingly complex print and finishing tasks with surprising ease, especially with the help of Template Manager that enables the creation of professional looking documents in-house.

- Easy-to-use control panel and clear five-line graphical LCD display

- Template Manager makes it easy to create and print a range of document types in-house

- Easy to replace separate toner and drum

Designed to handle the workload. Built to keep working

The C9655 enjoys award-winning digital LED single-pass print technology. This robust mechanism has fewer moving parts – offering proven reliability and allowing the smooth handling of a wide range of media. The unique Auto Media Detect feature automatically detects different media settings, saving the user from manually resetting the printer when changing paper types and allowing successful, reliable printing, all day, every day.

- Digital LED technology for ultra-reliable printing

- Simple, flat paper path for trouble-free operation

- Auto Media Detect for automatically detecting and selecting appropriate paper weight

- Auto Print Density and Colour Registration Control to ensure accurate colour reproduction

Business Printing Specialists

OKI Printing Solutions is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning products and solutions enabling businesses to achieve both image focused, vibrant, quality print communications and budget flexibility.

OKI Printing Solutions presents a full range of A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes with superior media-handling capabilities. In addition our fax, POS and dot matrix printers complete our range of print solutions. These best in class products are designed to be easy to use making the job of in-house print easier.

Considering the Environment

As part of the OKI Group's Charter of Corporate Conduct, OKI Printing Solutions continually reviews its efforts to provide environmentally sound solutions to its customers:

- Our products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI Printing Solutions' Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

20 years of LED Technology

OKI Printing Solutions pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.

Energy Star

Our printers and MFPs have earned the Energy Star by helping to eliminate energy waste through particularly energy-efficient designs. They use less energy to perform regular tasks. When not in use, they automatically enter a powersave mode and product features such as, duplex printing, further reduce the wasting of energy and paper resources.

High Definition Color

High Definition Color is OKI Printing Solutions' own unique set of market defining hardware and software technologies. Together, these components deliver unsurpassed colour printing simply, intelligently, and with perfect results.

Great colour starts with OKI Printing Solutions

WARNING! This product complies with EN55022 Class B. However when fitted with the optional network interface card or optional cut sheet feeder, compliance to EN55022 is Class A. In a domestic environment this configuration may cause radio interference, in which case the user may be required to take adequate control measures.
