

KONICA MINOLTA

**Color Revolution:** brilliant image quality & bizhub productivity.

COUNT ON KONICA MINOLTA  
bizhub C652/C552/C452

## **bizhub color: more power to communicate.**

COLOR DOCUMENTS COMMUNICATE WITH ADDED IMPACT – AND YOU CAN COUNT ON THE BIZHUB C652, C552 AND C452 TO IMPROVE YOUR IMAGE WITHOUT SLOWING DOWN YOUR WORKFLOW. WITH EXCLUSIVE SIMITRI® HD TONER QUALITY, EVERY COLOR DOCUMENT CAN MAKE INFORMATION MORE ACCESSIBLE, MEMORABLE AND PERSUASIVE. HIGH-SPEED, COST-EFFICIENT B&W SAVES MONEY IN EVERYDAY PRINT/COPY OUTPUT. AND KONICA MINOLTA INNOVATIONS LIKE BIZHUB OP TECHNOLOGY HELP YOU WORK FASTER, TO KEEP AHEAD OF THE COMPETITION.

### **Designed for the center of your workflow.**

From every angle, the bizhub C652 Series looks sleeker and more sophisticated than conventional printer-copiers. All three models feature dramatic dark cabinetry with hidden cords – perfect for center-office placement.

An InfoLine® display shows operating status at a glance, even from across the room. And compact design saves valuable office space – so even with optional Floor Finisher attached, you'll have powerful in-house color capabilities in a surprisingly small footprint.

In compliance with Section 508, the bizhub C652, C552 and C452 feature tilting control panels to accommodate wheelchair-bound employees. Blue LED function key lights are easier to see, and paper drawers slide smoothly with a light pull on the easy-grip handles.

Styling like this means there's no need to hide your bizhub. At the hub of your workflow, delivering built-in print/copy/scan convenience, high-speed output and simple operating controls, each bizhub C652 Series MFP can give everyone in your office immediate access to more power and productivity.

### Spectacular imaging with Simitri® HD toner.

Exclusive Konica Minolta Simitri HD toner technology takes you a step beyond conventional B&W replacement devices. Smaller, more uniform particles create images with greater detail, smoother color gradations and richer color tonality. And low-temperature oil-less fusing saves energy, while producing color documents that won't fade, crack or peel – so they're ideal for long-term archives.

The bizhub C652 Series also benefits from new advancements in color reproduction. Industry-leading image stabilization speeds your output with settings that optimize performance to achieve near 100% productivity. Print resolution of 1800 dpi equivalent x 600 dpi improves graphics, photos and illustrations. And Outline PDF smoothes edges for more legible text.

Konica Minolta's Auto-Refining Developing system also achieves greater color accuracy and maintains precise color uniformity during long-run printing – so you can relax while your bizhub gets the job done.

### Simple operation, seamless networking.

Using a large 8.5" color touch-panel display, even walk-up printing and copying can be more productive. Intuitive operation, simple menus and programmable short-cut keys put more power at your fingertips. Thumbnails let you preview documents before you print, avoiding mistakes that waste time and paper. Animated screens guide you and make menus more user-friendly.

All three bizhub C652 Series models incorporate ingenious Konica Minolta control advantages – including the industry award-winning speed and convenience of MyTab™ printing, allowing individuals to create a customized tab that saves their preferred print settings for quick access.

### The built-in power of bizhub OP.

At the heart of every bizhub device is bizhub OP (Open Platform) technology – driving the unique Konica Minolta approach to MFP productivity with the power to move information more quickly and simply than ever before.

Exclusive bizhub Architecture consolidates major functions on uniform modules for fast internal processing with consistent control interface that requires less operator training. The Emperon® Print System is built in, for full print/copy/scan functionality right from the start – with Windows Vista drivers, PCL6/PS3 emulation, and native XPS functionality to handle print files in any format. And Universal Printer Drivers simplify print management with a common user interface, standard commands, and auto detection and configuration of devices to simplify IT control in multi-printer networks.

With bizhub Extended Solution Technology (bEST), your bizhub can interface seamlessly with print management, variable printing, cost control and other specialized software – advantages that large and mid-size businesses demand to meet specialized needs like print management, variable printing, account tracking and cost control.

bizhub C652

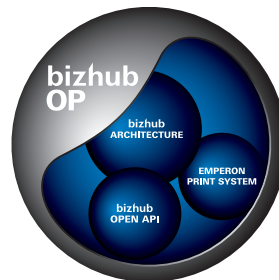

bizhub C552

bizhub C452

Konica Minolta incorporates green technologies into every bizhub device. Lower power consumption. Energy-saving operating modes. High-yield toner cartridges designed for easy recycling. And whisper-quiet operation in both print/copy and standby modes, to make your office environment calmer and more productive. In our manufacturing operations, we also reduce emissions, eliminate many pollutants and use recycled materials wherever we can to reduce environmental impact throughout the life cycle of each bizhub product.

**The speeds, feeds and features you need.**

In high-volume environments with rising document workloads, saving money requires greater throughput power with fewer redundant devices. The bizhub C652 Series gives you powerful, scalable functionality that keeps pace with your traffic – and grows with your business.

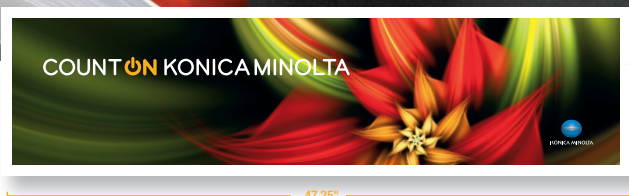

The bizhub C652 delivers high-speed color at 50 ppm, with even faster 65 ppm B&W output. The bizhub C552 provides color output of 45 ppm and B&W output of 55 ppm. And the bizhub C452 gives you 45 ppm output in both color and B&W.

Accelerated RIP speed produces color prints faster. With standard reversing auto document feeders, all three models scan documents at up to 78 originals per minute to bring information into your workflow more quickly. They also warm up in seconds, so you can start making B&W prints and copies before your coffee gets cold.

**bizhub printing: in-house color at lower cost.**

WITH THE BIZHUB C652, C552 AND C452, YOU CAN COUNT ON A RIGHT-SIZE SOLUTION FOR ALL YOUR COLOR AND B&W PRINTING REQUIREMENTS – CORPORATE REPORTS, SALES TRAINING MANUALS, DIRECT-MAIL BROCHURES, HUMAN RESOURCES DOCUMENTS AND MORE. WITH FAST OUTPUT, SUPERIOR RELIABILITY AND WIDE-RANGING AUTO-FINISH OPTIONS, YOU'LL BE ABLE TO PRINT SHORT-RUN COLOR IN-HOUSE – SATISFYING CORPORATE AND PRINT-FOR-PAY CLIENTS WHILE IMPROVING IMAGE QUALITY AND REDUCING COST.

With the optional FS-527 Finisher or optional OT-503 Output Tray installed, the bizhub C452 can produce full-color banners up to 11-3/4" x 47-1/4".\* The bizhub C652 and C552, when configured with the optional OT-503 Output Tray, also support banner printing.

#### Print features for flexible input and output.

You can scan originals in sizes up to 11" x 17", handling two-page spreads in a single scan. Auto duplexing of up to 140 lb. index stock at rated engine speed lets you save paper while maintaining 100% productivity. Proof Copy allows you to check your output before making a full print/copy run, avoiding reprints that waste time and paper.

You'll have two choices in optional large capacity paper cassettes. The LU-301 accepts 3,000 sheets of letter-size paper and raises maximum paper capacity to 6,650 sheets, enough to work far longer without re-loading paper. The adjustable LU-204 loads up to 2,500 sheets of paper in 8-1/2" x 11", 8-1/2" x 14", 11" x 17", even 12" x 18" size – so you can print oversized graphics, 2-page spreads and color proofs that preserve crop marks and borders.

In copy mode, you can automatically apply a transparent watermark to copies – and easily copy two-sided business cards, drivers' licenses and insurance cards with the new Card Shot feature. When you copy documents with the cover open, Non-Image Erase automatically eliminates the black area surrounding your original.

For even greater flexibility, you can print wirelessly with Bluetooth® option (EK-605) – and use a standard USB connector for saving files to and printing from a USB thumb-drive as well as importing and exporting files to/from User Boxes.

#### Finishing power for in-house productivity.

A right-size solution matches your workflow – and with a powerful array of auto finishing options, each bizhub C652 Series model can be customized to fit your document needs.

The bizhub C652 and C552 accept a modular Staple Finisher (FS-526) with 100-sheet multi-position stapling and custom sorting and grouping. You can expand your finishing capabilities with a Saddle Stitcher Kit (SD-508) for creating booklets up to 80 pages in length, a Punch Kit (PK-516) for 2/3-hole punching at top or side, a Fold Unit (ZU-606) for Z-Folding flyers, spreadsheets or extra-wide insert pages, and a Post-Insertor (PI-505) to add pre-printed covers or chapter dividers. There's also a Job Separator Tray (JS-602) to sort print/copy/fax output, for those environments that require dedicated output bins on their finisher.

The bizhub C452 accepts a compact Floor Finisher option (FS-527), with 50-sheet stapling – plus modular design that lets you add a Hole-Punch Kit (PK-517) for 2/3-hole punching at side or top, a Saddle Stitcher Kit (SD-509) for booklets up to 60 pages (15 sheets), and a Third Output Tray (JS-603) for sorting prints, copies and faxes. When no finisher is needed, an optional JS-504 Job Separator Tray can separate print, copy or fax output.

#### Reliability for workhorse performance.

To keep working, with maximum uptime – that's the goal of any business or institution. The bizhub C652 Series meets and exceeds this goal with internal components redesigned for longer life and trouble-free performance day after day, month after month.

Every bizhub model also provides economy and reliability that reduce your total cost of ownership. Separate black drum and developer unit yield lower cost per copy. You can replace these components individually to save even more.

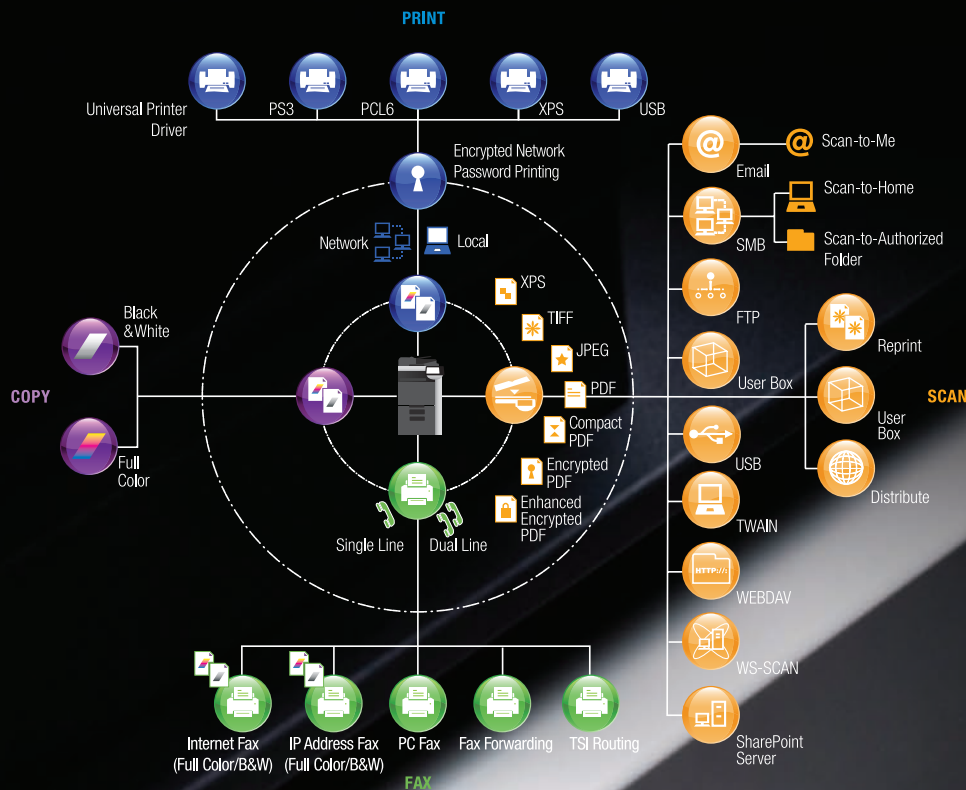

And industry-leading transferred image quality produces full-color print/copy documents that look more like your original or on-screen image – so first results match your needs and demands without tedious reprinting.

\* Please check the bizhub media guide for recommended banner paper.

# bizhub control: moving information further and faster.

WITH HIGH-SPEED SCANNING, YOU CAN COUNT ON YOUR BIZHUB C652 SERIES MFP TO STREAMLINE YOUR WORKFLOW. MOVE DOCUMENTS AND DATA IN ANY FORM. DISTRIBUTE TO MULTIPLE DESTINATIONS WITH FEWER KEYSTROKES. AND STORE AND SHARE INFORMATION MORE EASILY FROM A STANDARD 250 GB HARD DISK DRIVE. YOU CAN ALSO CUSTOMIZE YOUR SYSTEM WITH ADVANCED COLOR CONTROL, HIGH-SPEED FAX, UNIQUE I-OPTIONS, ENHANCED SECURITY PROTECTION AND SEAMLESS NETWORKING SOFTWARE – ALL THE POWER YOUR BUSINESS NEEDS.

## Scan documents to multiple destinations.

The bizhub C652, C552 and C452 all provide fast, flexible scanning: Scan to Email, FTP, SMB, and TWAIN scanning from PCs. Convenient Scan-to-Me and Scan-to-Home functions let you quickly bring information into your personal workflow. And bizhub Send function lets you perform scan functions simultaneously – for example, scanning and Emailing a file to a co-worker while faxing it to an outside supplier and saving it to your FTP site.

On a built-in 250 GB Hard Disk Drive, User Boxes provide dedicated storage for individuals, departments, workgroups, even projects. User Box Routing commands let you move/delete/combine document pages and change resolution and color output settings.

WebDAV (Web-based Distributed Authoring and Versioning) support helps you manage server files/folders, identify authors and dates, lock documents and track revisions. IPv6 support gives every networked bizhub device its own IP address. And Gigabit Ethernet handles information more quickly to reduce traffic demands on your network.

## Manage color with professional ease.

For graphics-intensive applications, the bizhub C652 Series accepts an optional IC-412 Fiery® Image Controller with standard EFI Command Workstation functionality, advanced color matching, color calibration and print queue management, Fiery Remote Scan, and EFI WebTools. You'll be able to handle specific Pantone color requirements, manage print queues more effectively, and fine-tune color output for more professional results. Standard Fiery VUE software gives creators an intuitive, icon-driven view of their documents – to orchestrate all elements into a professional high-impact result.

Powerful Fiery Graphic Arts Options include Auto Trapping, Hot Folder printing with embedded job ticket settings, job setup with finishing options and imposition attributes for drag-and-drop printing, Color Profiler Suite, Secure Erase, and Fiery Impose function for editing, assembling and previewing documents at pre-RIP level to save time.

An optional Color Profiler suite allows you to create customized ICC profiles with CMYK devices. The EFI Spectrophotometer (ES-1000) option gives you a fast, hand-held color profiling tool that measures individual color patches, full patch strips or day-to-day variations in printer inks and toners – and the EFI Spectrophotometer can automatically compensate for color fluctuations.

### Total security for the networked era.

Konica Minolta leads the industry in protecting sensitive information – conducting a far more extensive security evaluation than our competitors do. The bizhub C652 and C552 meet the strict new requirements of ISO 15408 Common Criteria security classification, and the bizhub C452 is currently in evaluation to meet this standard.

Standard security protections include bizhub Secure Print password locks, Customized User Authentication, Encrypted PDF workflow, IP Filtering to register IP addresses of PCs on your network, SSL/TLS Encryption to protect data during exchange with LDAP servers, S/MIME Encryption to safeguard Email exchanges and disk drive security features like HDD Lock, HDD Job Erase, and HDD sanitizing to meet military and international standards.

You can add a Copy Guard/Password Protect Kit to prevent unauthorized copying of sensitive documents (optional SC-507), as well as the optional HID Proximity Card Unit (AU-201H) or optional Biometric Authentication Unit (AU-102) with quick “ID and Print” operation.

### More options for all-in-one productivity.

To manage all your document traffic from one convenient location, the bizhub C652 Series features standard Color Internet faxing and lets you add an optional Super G3 Fax Kit with sophisticated transmission and reception features, PC Faxing and IP Address Faxing, even optional dual line to double your fax handling capacity.

You can also benefit from the special features of three unique Konica Minolta i-Option™ Kits. The LK-101 v2 i-Option Kit combines several advantages: an AJAX-capable web browser, the convenience of Scan-to-SharePoint® function, and a unique Image Panel interface that makes it easier to handle information stored in User Boxes. The LK-102 i-Option Kit provides AES 128-bit PDF encryption to meet government standards. And the LK-105 i-Option Kit lets you create searchable PDF files to locate specific text references.

### IT power with PageScope software.

PageScope Enterprise Suite can give every bizhub C652 Series device a server-based accounting solution to track activities on a per-page basis, provide password-protected log-in with multiple authentication possibilities (Biometric, HID Proximity Cards, network user name and password), and customize your display based on user log-in at any MFP on your network.

PageScope Web Connection and PageScope Net Care Device Manager enable individual users and IT administrators to manage multiple devices more easily. PageScope Print Status Notifier provides automatic alerts to speed your workflow. PageScope Data Administrator™ handles addresses, passwords, and accounts – and PageScope Workware™ makes it easy to manage scanned documents, view thumbnail images, search files, link files and convert file formats.

With the bizhub C652 Series, the possibilities keep growing – and your business will look better than ever.

General Specifications:

TYPE:	Full-Color Printer/Copier/Scanner with Stationary Platen		
PRINT/COPY PROCESS; TONER TYPE:	Tandem Process; Simitri® HD Toner		
MONTHLY DUTY CYCLE:	150,000 pages	200,000 pages	250,000 pages
PRINT/COPY SPEED:	Full Color: 45 ppm, B&W: 45 ppm (letter, portrait)	Full Color: 45 ppm, B&W: 55 ppm (letter, portrait)	Full Color: 50 ppm, B&W: 65 ppm (letter, portrait)
PRINT/COPY RESOLUTION:	1800 dpi equivalent x 600 dpi		
SCAN SPEED (letter):	Full Color: 78 opm (@300 dpi), 55 opm (@ 600 dpi)		
SCAN RESOLUTION:	B&W: 78 opm (@300 dpi), 65 opm (@ 600 dpi)		
SCAN FILE FORMATS:	200 dpi, 300 dpi, 400 dpi, 600 dpi		
MEMORY/HARD DISK DRIVE:	TIFF, PDF, Compact PDF, JPEG, XPS, Compact XPS		
GRADATION:	2 GB (shared print, copy, scan and fax memory)/250 GB HDD (shared print, copy, scan and fax)		
ORIGINAL SIZE:	256 color shades per pixel		
COPY SIZE:	Up to 11" x 17" (scanning/copying), Up to 11" x 17" full bleed on 12" x 18" paper (printing)		
WARM UP TIME:	Tray 1 & 2 (universal cassette): 5.5" x 8.5" to 12" x 18", Tray 3 & 4 (fixed cassette): 8.5" x 11", 5.5" x 8.5", 4" x 6", Bypass Tray: 4" x 6" to 12" x 18", 8" x 13"		
FIRST COPY TIME (letter):	Full Color: Less than 30 seconds (from Main SW), B&W: Less than 45 seconds (from Main SW)		
COPY QUANTITY:	Full Color: Less than 6 seconds, B&W: Less than 4.8 seconds	Full Color: Less than 6 seconds, B&W: Less than 4.3 seconds	Full Color: Less than 5.5 seconds, B&W: Less than 3.8 seconds
MAGNIFICATION:	1 - 9,999		
COLOR MODES:	Zoom range: 25% - 400%, 0.1% increments, Preset reduction: 79%, 73%, 65%, 50%, Preset enlargement: 121%, 129%, 155%, 200%		
COPY EXPOSURE MODES:	Auto Color, Full Color, Black & White, 2-Color, Single Color		
FAXING (optional):	Text (legible text), Text/Photo (clear text and halftones), Photo (optimized for gradations), Map (fine edges and legible text), Dot Matrix (dot matrix or pencil originals), Copied Paper		
FAX TRANSMISSION SPEED/FAX MEMORY:	Super G3 compatibility, MH, MR, MMR, JBIG data compression, 33.6 Kbps modem speed, F-Code support		
FAX EXPOSURE MODES:	Less than 3 seconds/page (JBIG, standard resolution)/2 GB (shared print, copy, scan, fax memory)		
STANDARD PAPER CAPACITY:	Text, Text/Photo, Photo, Dot Matrix		
MAXIMUM PAPER CAPACITY:	500-sheet universal cassette (17 lb. bond to 140 lb. index), 500-sheet universal cassette (17 lb. bond to 140 lb. index), 1,500-sheet cassette (17 lb. bond to 140 lb. index), 1,000-sheet cassette (17 lb. bond to 140 lb. index), 150-sheet bypass (17 lb. bond to 100 lb. cover or up to 300 gsm)		
DOCUMENT FEEDER (standard):	6,650 sheets (total, with options)		
POWER REQUIREMENTS/CONSUMPTION:	Reversing Automatic Document Feeder, Speed: Full Color: 78 opm, B&W: 78 opm, Paper Capacity: 100 sheets, Paper Size: 5.5" x 8.5" to 11" x 18"		
DIMENSIONS (W x D x H)/WEIGHT:	Paper Weight: Single-sided: 9.25 lb. bond to 55.75 lb. bond, Double-sided or mixed: 13.25 lb. bond to 34 lb. bond		
OPTIONS:	120V, 60Hz/Less than 2,000W	25.5" x 36"(30.5" without control panel) x 42.25"(includes RADF)/487.81 lb.	120V, 60Hz/Less than 2,100W
AVAILABLE PRINT/COPY FUNCTIONS:	AU-102 Biometric Authentication Unit, AU-201H HID Card Authentication Unit, C652 Series/C360 Series Fax Kit, EK-604 USB Interface for External Keyboard, EK-605 USB Interface for External Keyboard and Bluetooth Support, External Keyboard, FK-502 Fax Board, FS-526 100-Sheet Staple Finisher (C652/C552), FS-527 Floor Finisher (C452), IC-412 Image Controller (EFI Fiery Controller), JS-504 Job Separator Tray (C452), JS-602 Job Separator Tray (C652/C552), JS-603 Job Separator Tray (3rd Output Tray)(C452), KH-101 Keyboard Holder, LK-101 v2 i-Option, LK-102 i-Option, LK-105 i-Option, LU-204 Large Capacity Unit, LU-301 Large Capacity Unit, MK-720 Fax Connection Kit, OT-503 Output Tray (Exit Tray), PI-505 Post Inserter (C652/C552), PK-516 Punch Kit (C652/C552), PK-517 Punch Kit (C452), SC-507 Copy Guard Kit, SD-508 Saddle Stitcher Kit (C652/C552), SD-509 Saddle Stitcher Kit (C452), Spare TX Marker Stamp 2, SP-501 Fax Stamp Unit, UK-203 i-Option Memory Upgrade Kit, WT-506 Working Table, VI-505 Video Interface Kit for IC-412, ZU-606 Z-Fold Unit (C652/C552)		
AVAILABLE SCAN FUNCTIONS:	Account Track (1,000 accounts), Administration Mode, Auto Duplex, Auto Trapping, Auto Tray Switching, Bi-Directional Communication, Black Over Print, Card Shot, Color Modes & Functions (Auto Color/Full Color, Black & White Mode, Single Color Mode, 2-Color Mode, Color Adjustments, Copy Guard, Copy Modes (Simplex/Duplex, 2-in-1, 4-in-1, 8-in-1, Book, Booklet, Booklet + Bind), Cover Mode, Creative Functions (Mirror Image, XY Zoom, Image Center, Base Color, Neg./Pos. Reverse, Image Repeat), Encrypted Network Password Printing, Energy Save Mode, Enlarge Display, Erase (Border, Frame, Edge) Mode, Finishing (Group, Sort, Staple, Punch, Half-Fold, Center Staple and Fold and Tri-Fold), Form Overlay, Glossy Mode, HDD Encryption, HDD Job, Overwrite, HDD Sanitizing, Image Adjustments (Color Matching, Pure Black Auto ON/OFF, Color Balance, Screen Settings, Image Smoothing ON/OFF), Image Preview (Job Finishing Image Display, Engine Configuration Display), Interrupt, Job List, Job Reserve, Job Skip, LDAP, Mixplex, Mix-Media, MyTab, Non-image Area Erase, OHP Interleaving, Password Copy, Program/Recall Jobs, Paper Type Selection (Normal, Thick 1/1+, Thick 2, Thick 3, Thick 4), Print Modes (Simplex/Duplex, 2-in-1, 4-in-1, 6-in-1, 9-in-1, 16-in-1, Booklet, Booklet + Bind), Print from USB, Proof Copy, Secure Printing, Separate Scan, Text Enhancement, User Authentication (Up to 20 Authentication Servers) (Synchronize w/Account Track), User Box Function, Utility (Meter Count, Environment Setting, Default Setting, One-Touch Setting, Check Consumables Life), Watermark, Zoom Selection		
AVAILABLE FAX FUNCTIONS:	Scan-to-Email, Scan-to-FTP, Scan-to-HDD (Scan-to-User Box), Scan-to-Me/Scan-to-Home, Scan-to-SharePoint, Scan-to-SMB (Scan-to-Desktop), Scan-to-USB, Scan-to-WebDAV, Network TWAIN, WS-Scan, Color Internet Fax		
APPLICATIONS:	Autodialing (2,000 one-touches), Auto Memory Reception, Auto Reduction Printing, Broadcasting (maximum 605 locations), Bulletin Board, Duplex Transmission/Reception, Exposure Mode, Group Dialing (up to 500 one-touches per group), Image Rotation Transmission/Reception, Mailbox Transmission/Reception, Memory/Quick Dial, Overseas Transmission, Password Transmission/Reception, PC-Fax, Polling Transmission/Reception, Priority Transmission, Print Setting or Overnight Reception, Program Dialing (400 programs), Redial, Relay Broadcasting, Relay Transmission, Remote Reception, Timer Transmission, TSI Routing		
MANAGEMENT TOOLS:	<b>Network &amp; Device Management:</b> PageScope Data Administrator, Driver Packaging Utility, HDD Back-Up Utility, Download Manager (ICC Color Profile Utility), Log Management Utility, <b>User Tools:</b> PageScope Web Connection, PageScope Direct Print, PageScope Box Operator, PageScope Print Status Notifier, Font Management Utility, Copy Protect Utility, Print Utility for Unix bizhub vCare support		
OPTIONAL SOFTWARE:	PageScope Workware, <b>PageScope Enterprise Suite:</b> PageScope Account Manager, PageScope Authentication Manager, PageScope My Panel Manager, PageScope Net Care Device Manager (standard)		
Emperon Print System (standard):			
PROCESSOR; MEMORY/HARD DISK DRIVE:	1 GHz (MC 7448); 2 GB (shared copier memory)/250 GB (shared copier HDD)
