EH-C591 Convenience Stapler

Give documents a little help on the side

Konica Minolta presents a stapler that is sleek in design and simple to use – a perfect complement to your bizhub multifunctional or desktop printer, with versatile side mounting and matching dark colour. It lets you quickly staple your originals back together after scanning or making copies, staple up to 50-page prints and copies at side and corner, even fasten your documents, reports or other materials with a quick walk-up operation.

The job will get done quickly and surely, giving your document a professional finished look that ordinary desktop staplers cannot match – and with the same staples used by many recent multifunctionals, you will not have to maintain a separate inventory or refills.

Office systems EH-C591 Convenience Stapler

→ EH-C591 Convenience Stapler

The easy way to fasten documents before or after you make scans, prints or copies.

With compact design and simple operation, the EH-C591 Convenience Stapler expands the flexibility of your multifunctional or desktop printer/copier – it gives you greater flexibility to fasten documents at any stage of reproduction.

Stapling an original after copying or scanning is quick and easy, you do not have to carry a stack of loose pages back to your desk. You can staple up to 50-sheet prints or copies – a speedy alternative to selecting auto-finishing options if you're only making a single copy or copying documents that have just a few pages. And rather than use a clumsy hand-held or noisy desktop stapler, you can walk up to your printer/copier and staple documents quickly and quietly while holding them with both hands – keeping them tightly bound with a clean, professional look.

A valuable addition to any document system, the EH-C591 Convenience Stapler will prove its worth every day – by providing an extra finishing option that speeds your workflow.

- Sleek dark styling matches the colour of most recent bizhub multifunctional devices.
- Side or corner stapling lets you fasten documents quickly in any format that fits your need.
- Easy staple refills with a quick rotating movement that inserts a 5,000-staple refill cartridge.
- Working table allows the stapler to be mounted to the side of your bizhub multifunctional.

Rotating and easy handling of the cartridge

→ Key features
