

PosterArtist

Poster creation made simple.

PosterArtist is an easy to use, template-driven poster creation software that helps users of all levels of experience create professional-looking posters, banners, and signage.

With PosterArtist, users will have access to:

- > 200 pre-designed templates
- > Over 1000 royalty-free images and clipart
- > Backgrounds
- > Frames
- > Text graphics
- > and more!

> It's all in the box!

Four Easy Steps to Poster Creation

1

SELECT TEMPLATE: With over 175 templates to choose from, you are certain to find something that will meet your needs.

MEDIA OPTIONS: Using Paper Options, determine the style of your final output by selecting media size and type.

2

3

CUSTOMIZE: With dozens of editing functions and hundreds of high-resolution images, you can personalize your creation!

PRINT: Have confidence in your posters! With built-in print preview and design check features, your poster will print as intended.

4

Advanced Features

Easy to understand, simple to use.

Auto Design

With PosterArtist's Auto Design feature there's no reason to employ a professional designer in-house. Just use Canon's Dynamic Layout Engine Technology.

- 1 Select a template
- 2 Choose a style
- 3 Input text and images
- 4 You're done!

Quick Copy

A quick solution for enlarging documents!

Using a Canon CanoScan® scanner (*not included*), you can easily enlarge a letter-sized document to poster size with the click of a button!

Page Capture

Use Page Capture to transform your Microsoft Word® documents and PowerPoint® slides into a poster. After importing the files into PosterArtist, simply select the output size, add text, and send to the printer!

Variable Data

Save time when creating multiple posters!

Variable Data simplifies the process by linking your poster to a database allowing for quick and easy personalization of signage, providing for huge time-saving opportunities for businesses.
