

KONICA MINOLTA

WHY YOUR BUSINESS NEEDS THE POWER OF BIZHUB.

Because your costs are rising. Your workload is growing. And your information is flowing through new channels. The bizhub™ 180 can help – with fast, cost-efficient digital document handling, state-of-the-art copying and built-in TWAIN B&W scanning and GDI printing. Need more? You'll have all-in-one functionality with versatile options like PCL printing, network scanning, and Super G3 fax. Put it all together, and your bizhub becomes the hub of your business – a central document resource that's built to meet heavy traffic demands with workhorse productivity. There's even a complete PageScope™ software suite to help you manage multiple documents and devices from a single point. Why bizhub? Because your business needs it – and your documents deserve it.

The essentials of imaging

KONICA MINOLTA bizhub 180

Advanced bizhub design. Managing documents from a single hub can make information more powerful – and a central document resource eliminates redundant desktop devices with a flexible, upgradeable system at a cost you can afford.

Copies, prints and scans right out of the box. With output up to 18 ppm, the bizhub 180 provides high-speed copying, built-in GDI (Graphical Design Interface) printing and standard TWAIN B&W scanning to increase your productivity.

1,475-sheet maximum paper capacity. In addition to a standard 275-sheet paper tray (up to 11" x 17"), you can add up to four optional 275-sheet universal paper trays plus an optional 100-sheet manual bypass that also handles OHP transparencies or ten #10 envelopes.

2-in-1 and 4-in-1 storyboarding. Lets you save paper by copying multiple originals on single sheets – a fast, cost-effective way to reproduce long reports and presentations.

Quick walk-up copies and prints. Warm-up time of 15 seconds or less and first-copy output in 7 seconds or less lets you make quick copies whenever you need them.

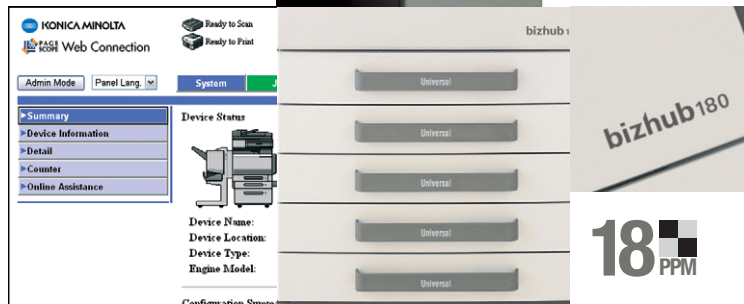

Optional Super G3 fax. Add the FK-505 Fax Kit, and you'll have high-speed fax transmission/reception with autodialing, delayed transmission, memory reception and other advanced high-volume facsimile features.

Optional PCL6 and PCL5e printing. High-quality PCL printing also provides image smoothing, for 1200 x 600 dpi (equivalent) resolution that makes graphics and halftones look more professional.

Optional network scanning and Internet faxing. Adds Scan-to-Email with attached documents in TIFF or PDF file formats, Scan-to-FTP capability to transfer files to a server, and Internet fax functionality – so you can share information more quickly throughout your organization.

Optional auto document feeders. The DF-502 Automatic Document Feeder (50-sheet capacity) or DF-605 Reversing Automatic Document Feeder (80-sheet capacity) help speed the process of loading, scanning and copying originals.

EASY TO OPERATE FROM ANY ANGLE. FOR SIMPLE OPERATION AND FLEXIBLE ACCESS FROM ANY POSITION (INCLUDING WHEELCHAIR ACCESS), THE BIZHUB 180 PROVIDES 3-STEP TILTING CONTROL PANEL, LARGE FUNCTION KEYS, AND A FAX PANEL. UPGRADE WITH DEDICATED FAX COMMANDS.

NETWORKING POWER WITH PAGESCOPE™ SOFTWARE. PAGESCOPE WEB CONNECTION GIVES YOUR BIZHUB 180 ITS OWN "WEBSITE" FOR STATUS MONITORING – AND PAGESCOPE NETWORK SETUP ALLOWS IT ADMINISTRATORS TO MANAGE MULTIPLE BIZHUB AND OTHER MIB-COMPLIANT DEVICES FROM A SINGLE POINT. PAGESCOPE OPTIONS CAN ALSO PROVIDE ADVANCED SOLUTIONS FOR ADMINISTRATIVE DATA CONTROL, PERSONAL DOCUMENT HANDLING, FORMAT CONVERSION AND MORE.

SUPERB IMAGE QUALITY. THE EXCLUSIVE MICRO-TONING HIGH-GRADE (MT-HG) IMAGING SYSTEM SHARPENS FINE DETAIL AND MAKES TEXT MORE LEGIBLE, SO EVERY DOCUMENT REFLECTS THE EXCELLENCE OF YOUR BUSINESS.
